

The development plan of the DAIA

DAIA - Digital Artificial Intelligenece Agent
DVAI - Digital Vision Artificial Intelligenece

Repositories:

-  DVAI
-  DVAI-AutoGPT-Plugin
-  DAIA
-  Commercial DAIA (coming soon)

Goal of DVAI:
Succesfully label and locate various UI items on the screen, mosly icons and other interactive parts of the UI

Goal of the DAIA:
Make a better more powerful AI agent, that is inspired by AutoGPT and powered by DVAI.
This repository will be private to enable commercial use for later

Goal of the DVAI-AutoGPT-Plugin:
Make AutoGPT have the abbility to use the DVAI to interact with the PC of a user
